"10/10 No notes!"

★★★★★ 5.0

January 12, 2025

10/10! I have enjoyed the most wonderful experience with TripleSeat and can't imagine ever going back to another platform!

Pros

I have become the BIGGEST fan of Tripleseat! I use it daily for my event management and it is truly the most user friendly platform I have had the pleasure of using! It keeps my completely on task, provides quick and user friendly proposals to clients and allows me to keep up with contracts and invoicing easily! I truly could not be happier to have implemented this platform at my small company!

Cons

NO cons! Truly! I was nervous as I am always anxious about using new platforms but I picked this up with ease and now can't imagine life without it!

Switched from Caterasee

It was becoming incredibly antiquated and Tripleseat was a MUCH better match for our needs!

"The Sales and Catering Power Couple That Streamlines Our Hotel Operations"

★★★★★ 5.0

December 9, 2025

Tripleseat combined with Opera PMS has completely transformed our workflow. It bridges the gap between our sales team and the operations team, ensuring everyone is looking at the same numbers. The ability to manage events and room blocks in one cohesive flow makes the investment incredibly worthwhile. It allows us to focus on selling and servicing our guests rather than getting bogged down in administrative data entry. It is an essential tool for any modern hotel looking to maximize efficiency.
